NORMA
STANDARD
HOPMA
FRANCE

Dyrektywa 78/2009/EC określa wymagania jakie muszą spełniać bezpieczne rury montowane na samochodach poruszających się po drogach całej Europy - w tym też Polski. Jako jedyny polski producent potrafimy osiągnąć wystarczającą jakość by sprostać wymaganiom tej normy. Pamiętajmy, że w przypadku kolizji orurowanie zabezpiecza samochód i jednocześnie chroni pieszych przed urazami.

78/2009/EC directive specifies the demands that have to be met by pedestrian protection guard installed in cars in entire Europe, including Poland. As the exclusive Polish manufacturer, we can reach the sufficient quality to meet the demands posed by this standard. We need to remember that in case of collision the front guard system secures your car and protects pedestrians against injury.

Директива 78/2009/ЕС определяет требования, какие должны выполнять безопасные трубы на автомобилях, которые перемещаются по дорогам всей Европы - в том и Польши. Наша фирма является единственным польским производителем, осуществляющим требования этой директивы в области качества. Мы должны помнить, что современная установка навесного оборудования обеспечивает машину в такой же степени, как и пешеходов.

Die Richtlinie 78/2009/ EC bestimmt Anforderungen, die die auf Autos montierten sicheren Bügel innerhalb von EU erfüllen müssen. Wir sind der einzige Hersteller in Polen, der solche Qualität erreicht und diese Rechtsform bewältigen kann. Man soll immer in Erinnerung behalten, dass während einer Kollision die Bügel das Auto schützen und gleichzeitig die Fußgänger gegen Verletzungen sichern.

La directive 78/2009 / CE spécifie les exigences auxquelles doivent répondre les pare-buffles sécurisés montés sur les voitures circulant sur les routes à travers l'Europe - y compris la Pologne. En tant que seul fabricant polonais, nous pouvons atteindre une qualité suffisante pour répondre aux exigences de cette norme. Rappelez-vous qu'en cas de collision, le pare buffle protège la voiture et protège en même temps les piétons contre les blessures.

Isuzu D-MAX - AT35

AFTER CONVERSION

Choose your suspension

Choose your tyres

Old Man Emu suspension

OME BP-51 suspension

BF Goodrich A/T KO2 315/70 R17

Nokian Hakkapeliita LT 2 315/70 R17

When we convert D-MAX to 35" tires, we lift the suspension 30 mm and the body - 20mm. Extra fender flares are used which gives your PICK-UP a powerful look and separates it from all others. With the AT35 you can take your PICK-UP to almost any mountain road in the world, without having any trouble.

The AT35 will give you much grater ground clearance, better traction, softer ride, higher seating and most of all a feeling of confidence. Also will it give you the possibility to deflate your tires, so that you get a better flotation in snow, sand and mud.

The AT35 is ideal for hunters, farmers and park rangers, or just for those who want something different from the rest.

- 315x70 R17" tires BFG AT KO2 or Nokian Hakkapeliitta LT2 „Arctic Trucks”
- 17x10" alloy wheels
- Torque wrench
- Fender flares, painted
- Running boards and brackets
- Mud flaps
- Speedometer calibrator
- 30 mm OME suspension lift, front/rear
- 20 mm body lift
- Fender trimming, front/rear
- First aid kit
- Wheel alignment

Modification cost with OME suspension: 9 200 euro net
Delivery to our location not included.
Stainless steel products and additional lamps are not included.
Lead time: 15 working days.
Payment: 10% with the order 90% before car pick up.

Toyota Hilux - AT35

AFTER CONVERSION

Choose your suspension

Choose your tyres

OE suspension (stock)

BF Goodrich A/T KO2 315/70 R17

Nokian Hakkapeliitta LT 2 315/70 R17

AT35 CONVERSION

The Toyota Hilux AT35 is based on the well known and worldwide Toyota Hilux. In order to fit the larger 315x70 R17 off-road tires the front and rear suspension is lifted 40 mm and the wheel arches are cut up and made larger. Tailor made fender flares are fitted to cover the large tires. The side steps are extended to match the fender flares.

The modifications are design in such a way that the vehicle will keep all its original functions and still get better drivability, both on and off-road. All parts are either genuine Toyota parts or special parts fabricated from high grade material and designed by strict standards.

AT35 CONTENTS

- 315x70 R17" tires BFG AT KO2 or Nokian Hakkapeliitta LT2 „Arctic Trucks”
- 17x10" alloy wheels
- Torque wrench
- Fender flares, painted
- Running boards and brackets
- Mud flaps
- Speedometer calibrator
- 40 mm suspension lift, front/rear
- Fender trimming, front/rear
- First aid kit
- Wheel alignment

Modification cost with OE suspension: 8 950 euro net
Delivery to our location not included.
Stainless steel products and additional lamps are not included.
Lead time: 10 working days.

Toyota Hilux / Hilux Revo - AT35

AFTER CONVERSION

Choose your Suspension

Choose your tyres

OE suspension (stock)

OME BP-51 suspension

BF Goodrich A/T KO2 315/70 R17

Nokian Hakkapelita LT 2 315/70 R17

When we convert a PICK-UP to 35" tires, we lift the suspension 40 mm, and in some cases we would lift both the suspension and the body. Extra fender flares are used which gives your SUV a powerful look and separates it from all others. With the AT35 you can take your PICK-UP to almost any mountain road in the world, with out having any trouble.

The AT35 will give you much grater ground clearance, better traction, softer ride, higher seating and most of all a feeling of confidence. Also will it give you the possibility to deflate your tires, so that you get a better flotation in snow, sand and mud.

The AT35 is ideal for hunters, farmers and park rangers, or just for those who want something different from the rest.

- 315x70 R17" AT tires
- 17x10" alloy wheels
- Torque wrench
- Fender flares, painted
- Running boards and brackets
- Mud flaps
- Speedometer calibrator
- 40 mm suspension lift, front

Modification cost with OE suspension: 8 950 euro net
 Delivery to our location not included.
 Stainless steel products and additional lamps are not included.
 Lead time: 15 working days.
 Payment: 10% with the order 90% before car pick up.

TOYOTA LAND CRUISER 150 - AT35

AT35 CONVERSION

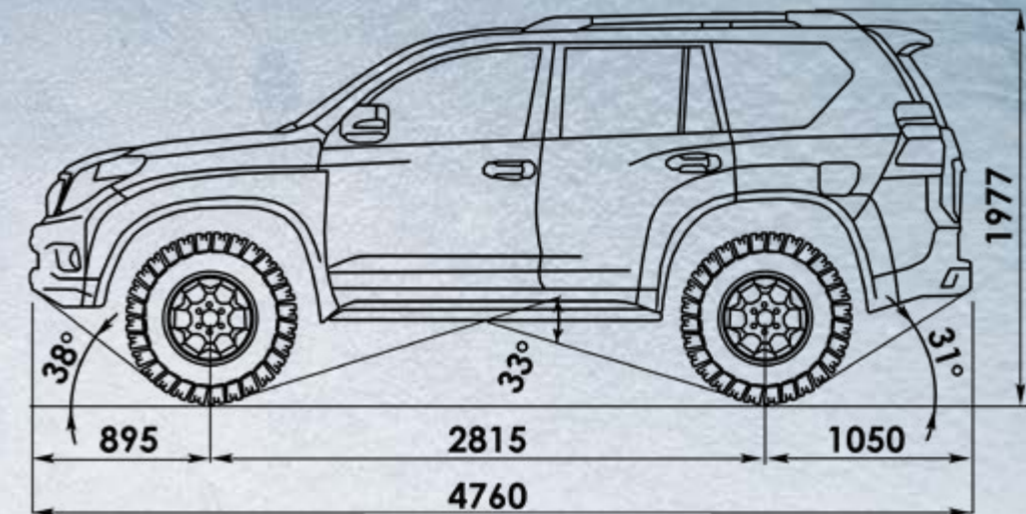

The Toyota Land Cruiser 150 AT35 is based on the well known and worldwide established Toyota Land Cruiser. In order to fit the larger 315x70 R17 off-road tires the front and rear suspension is lifted 40 mm and the wheel arches are cut up and made larger. Tailor made fender flares are fitted to cover the large tires.

The LC150 modified with 35" tires gives you excellent performance off road but also provides you with an outstanding overview of the traffic in the city. Behind the wheel of this car you have the ability to decide where to go, whether if that is a ride in style in the city or a trip to the roughest outback.

AT35 CONTENTS

- 315x70 R17" tires BFG AT KO2 or Nokian Hakkapeliitta LT2 „Arctic Trucks”
- 17x10" Arctic Trucks alloy wheels
- Torque wrench
- Fender flares, painted
- Running board brackets
- Mud flaps
- Speedometer calibrator
- 40 mm suspension lift, front/rear
- Fender trimming, front/rear
- First aid kit
- Wheel alignment
